LICENSE AND SUPPORT

Christmas Gift Tracker

Terms for the offline edition, plus how to get help.

Product Christmas Gift Tracker **Edition** Offline, account-free **Version** 1.0.0 **Updated** 31 October 2026

These terms apply to the Christmas Gift Tracker digital product you purchased, including the app, its guides, the sample backup, and any screenshots supplied with it. By installing or using the product, you agree to these terms. If you do not agree, do not use the product and contact the seller through Etsy Messages.

1. License grant

The seller grants you a personal, non-exclusive, non-transferable license to use Christmas Gift Tracker for your own personal, non-commercial Christmas planning. You may:

- install and use the app on devices you own or control;
- create and keep JSON backups and CSV exports of your own data;
- print pages for your own personal use;
- keep copies of the guides for your own reference.

2. What you may not do

- resell, rent, sublicense, publish, or redistribute the app or its guides;
- share the app files or hosted access with people who did not purchase them;
- include the app in another product, service, template, or bundle;
- remove or alter copyright, license, or attribution notices;
- reverse engineer, decompile, or extract source code except where the law expressly permits it;
- use the product in a way that violates applicable law or the rights of others.

3. Ownership

The app, its design, its documentation, and its branding remain the seller's property. This license does not sell you the software itself; it grants permission to use it. You own the data you enter and the backups and exports you create.

4. Your data and backups

> **You are responsible for your backups**
>
> The offline edition stores data in this browser on this device. Clearing site data, resetting a browser profile, using private windows, changing devices without a backup, or storage cleanup can remove the planner. There is no cloud backup or account recovery. Download a JSON backup regularly and keep it somewhere safe.

A complete backup includes delivery addresses and notes. Treat backup and CSV files as private. The seller cannot recover data that no longer exists on your device and does not receive a copy of your planner.

5. Privacy summary

- **No account.** The offline edition has no sign-in, account, or cloud sync.
- **No tracking.** The app contains no analytics, telemetry, advertising, or third-party runtime assets.
- **Local storage.** Seasons, recipients, gifts, ideas, budgets, themes, and settings are stored in this browser's IndexedDB.
- **Exports.** Backups and CSV files are created on your device and may contain sensitive information.
- **Hosting logs.** The publisher's hosting provider may record standard technical request logs when you load or update the app.
- **Purchases.** Order and payment details are handled by Etsy, not by the app.

6. Support

6.1 How to contact support

Contact the seller through **Etsy Messages** using the same account that bought the product. Include:

- the app version (1.0.0 for this release);
- your browser and device;
- the steps you took, what you expected, and what happened;
- a screenshot of any message, if possible.

6.2 What support covers

- questions about installation, offline setup, and where to find features;
- reports of reproducible app defects;
- clarification of documented behavior and limitations.

6.3 What support does not cover

- recovering data after browser storage has been cleared or a device has been lost;

- hosting setup on the buyer's own server;
- custom features, integrations, or modifications;
- issues caused by unsupported browsers, extensions, or altered files.

Response times depend on the seller's availability. Support is provided through Etsy Messages; the seller does not request remote access to your device or your planner data. Never send a backup containing personal information unless you choose to and understand what it contains.

7. Updates

The seller may publish updates or fixes. The app offers an update when one is available and waits for your consent before reloading; it does not reload over an open form. There is no promise that every future feature will be added to this edition, and no subscription is required for the version you purchased.

8. Refunds and Etsy

Refunds, cancellations, and digital-download terms follow the listing terms and Etsy's policies. Nothing in these terms limits rights you have under mandatory consumer law in your place of residence. If something is wrong with your download, contact the seller through Etsy Messages so it can be resolved.

9. Disclaimer

Christmas Gift Tracker is a planning tool. Budget figures, progress percentages, and alerts are informational and depend on the data you enter. The app is not financial, legal, or tax advice.

To the maximum extent permitted by law, the product is provided **"as is"** and **"as available,"** without warranties of merchantability, fitness for a particular purpose, or non-infringement. The seller does not warrant that the app will be uninterrupted, error-free, or compatible with every browser, device, or future browser version.

10. Limitation of liability

To the maximum extent permitted by law, the seller is not liable for indirect, incidental, special, consequential, or punitive damages, or for lost data, lost profits, or loss of use, arising from or related to the product. Where liability cannot be excluded, it is limited to the amount you paid for the product. Nothing in these terms excludes liability that cannot lawfully be excluded.

11. Changes to these terms

The seller may update these terms for future versions. The terms supplied with the version you purchased continue to apply to that version. Material changes will be reflected in the release documentation.

12. Independent product

Christmas Gift Tracker is an independent product. It is not affiliated with, endorsed by, or sponsored by Etsy, Google, Microsoft, Apple, Mozilla, or any browser maker. Browser names are used only to describe compatibility.

13. Contact

For license questions, support, or a problem with your download, contact the seller through **Etsy Messages** from your Etsy account. Please include the details listed in section 6.1 so the issue can be understood quickly.
